

## WEBEL- OPSIS Geomatics Academy offers

1. **Advanced Applications of Geospatial Technology** – 6 months
2. **Applications of Geospatial Technology** – 3 months
3. **Basics on Remote Sensing and GIS** – 2 months
4. **Alternative Energy Resources and Policies** – 2 months
5. **Curriculum based GIS project** – 2 months
6. **Vehicle Tracking and GPS** – 1.5 months
7. **Open source GIS** – 2 months
8. **Resistivity Survey and Rain Water Harvesting** – 2 months
9. **GPS / DGPS / Total Station survey** – 2 months
10. **Introduction to AutoCAD** – 1 month
11. **Interview Grooming and Personality Development** – 1 month

## Introduction :

Natural resource is a premium commodity that requires trained human resource to effectively manage it. The fusion of digital technology with conventional subjects is opening up huge opportunities in India. The field of Geomatics is one such upcoming field that will have a huge demand in the near future.

## What is Geomatics ?

It is "the art, science and technologies related to the management of geographically-referenced information." Geomatics attracts a huge variety of people. Academically any person from any field can learn the subject, be it geography, physics, chemistry, biology, mathematics, agriculture, urban planners, municipality managers, civil engineers, water resource community, geologists, forestry personnel, environmentalist, field surveyors, business community, MBA, automobile industry, software developers, web-developers, historians, archaeologists, politicians and anybody who is scientifically inclined. Geomatics or Geoinformatics are by and large a very friendly crowd.

## WEBEL-OPSIS Geomatics Academy - An short review

Webel, headquartered in Kolkata, is the nodal agency of the Government of West Bengal for developing Information Technology, Electronics and ITES industries in the State and creating value for the citizens. OPSIS SYSTEM PVT LTD is one of the organisation in the field of GIS and Geomatics since 2001 as strategic partner of Microlimages, USA in India. OPSIS has a wide experience of working with the GIS industry and academic world.

The WEBEL-OPSIS academy was created with an objective to provide quality training inputs to all interested candidates to make them employable in the Industry and provide training opportunities to enhance and broaden skills, to keep those skills current with the latest technology and software developments. This is a unique initiative to make Geomatics reach one and all at a very affordable cost.
